

Review of Delta Green on RPG.Net

Contributed by Agent Donald
Friday, 11 January 2008

Chris Richeson has written a review of the new hardcover Delta Green book on RPG.Net. His conclusion: "Some of the information is out of date at this point, but it's very easy to supplement the existing organizations where needed. This is one of my very favorite RPG books and I'm very glad to have it. If you enjoy conspiracy gaming, the Mythos, or playing bands of heroic semi-governmental operatives then pick this one up."
